Bagh (North-West  
Delhi) Centre

**FIITJEE is  
proud of you  
and wishes you  
to represent  
India in  
International  
Mathematical  
Olympiad and  
make the  
Country proud.**

I am Kunal Singhal. Currently in class XI. I am a student of FIITJEE Punjabi Bagh. I just lived some of the most wonderful moments of my life. Result of Indian National Mathematics Olympiad (INMO) was declared recently. Its a great pleasure to write that among the 30 students selected for the training camp, my all India rank is 1. Being declared the topper INMO, my aspiration, kind of startled me. Now, I hope to get into Indian Team for IMO i.e., International Mathematics Olympiad, which consists of six students and make India proud at the International forum.

It was in class XI only that I came to know about this glorious exam. I really appreciate the support and guidance provided by FIITJEE. Here I met a senior of mine, Aachit. He cleared this exam a couple of years back. He apart from being a great source of inspiration, helped me alot.

News for my selection for KVPY scholarship also came on the same day. 25th of Feb, 2011 a big day for me. I suggest all my juniors to start preparation for competitive exams as soon as possible.
